

ECONOMIC DEVELOPMENT QUARTERLY

The Journal of American Economic Revitalization

Mission and Focus

The **mission** of *Economic Development Quarterly* (EDQ) is to promote research supporting the formulation of evidence-based economic development and workforce development policy, program, and practice in the **United States**. The **focus** of EDQ is high quality research in economic development policy and practice **within the United States**. This research can be scholarly, applied, or practice oriented. EDQ takes a broad view of economic development policy and practice by encompassing both labor supply and demand-side research perspectives. Workforce development strategies, policies, programs, and practices are crucial components to regional economic development and therefore will remain a special focus of EDQ.

Case studies contribute to the body of economic development research. EDQ encourages cross-sectional or multisite, comparative case studies rather than single-case, single-site studies. In selecting articles for publication, priority will be given to high quality research that contributes to the body of evidence discovering and/or substantiating effective economic development strategies, policies, programs, and practice. Each article published in EDQ will clearly identify the implications of the research for policy and practice within the United States and its contribution to the body of evidence on effective economic development strategies. Research based on other nations will be considered only if it has important and clearly identified implications for policy and practice **within the United States**.

How can authors contribute their research to EDQ?

EDQ is a member and follows the guidelines of the **Committee on Publication Ethics (COPE)**. Submissions should be submitted electronically in Microsoft Word to <http://mc.manuscriptcentral.com/edq>. All submissions should follow the style of the *Publication Manual of the American Psychological Association* (APA), 7th edition. The editors assume that manuscripts are for the exclusive consideration of EDQ and have not been submitted elsewhere, nor should manuscripts have been published elsewhere in substantially similar form or with substantially similar content. Authors in doubt about what constitutes prior publication should consult the Managing Editor at edq@upjohn.org. Submission of a manuscript implies commitment to publish in the journal.
